## INSTRUCTIONS

1. Apply each color of Koi Tube Watercolors directly to canvas. With a wet brush, spread the paint. Note: Some canvases may resist the watercolor. This is fun, just keep adding paint and working it into the canvas.
2. Once the canvas is dry, adhere your photo to the canvas.
3. Using the Sakura Pen Touch pens, draw a loose frame around your photo.
4. Out of that frame, begin to doodle a garden of flowers. Most flowers are just simple geometric shapes. Mix the gold and white Pen Touch pens.
5. As a finishing touch, sprinkle some black watercolor dots across the canvas.
